CHERRY PECTORAL,

For the rapid Cure of
COUGHS, COLDS, HOARNESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmatchable benefit conferred on thousands of sufferers, could originate and maintain the reputation it employs. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefit on the afflicted they can never forget, and produced cure too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably cure the maladies for which it is employed.

As time makes these facts wider and better known, the medicine has gradually become the best reliance of the subject, from the log-cabin of the American Peasant, to the Palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, Cherry Pectoral is known as the best remedy extant for diseases of the throat and lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, Cherry Pectoral is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, some of the most trifling tooth-ailments we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The Cherry Pectoral is manufactured by a practical Chemist, and every usage of it under his own eye, with invariably accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without alteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should command itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated anti-antiseptic trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength, to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

Prepared and sold by James C. Ayer, Practical and Analytical Chemist, La. Wolf, Mass.

Sold by L. T. Brittingham & Bro., Hannibal; Kightley & Cartershire, New London; Tate, Turnbull & Co., Franklin; Gifford, Davis & Co., Clarksville; Francis, Walker & Warren, St. Louis, and by Dr. Geigts everywhere.

THE INTRODUCTION OF

FILLEY'S STOVES

Into Northern Missouri, to any extent, has been in the last three years; since which time they have been gradually increasing the manufacture and sale of them; and although, owing to their being light and smooth, and something new, some little difficulty attended the sale and use at first, yet by always making Stoves and Castings of the best quality of Scotch Pig and Missouri Mountain Iron, they have proved to withstand fire better than any other Casting made in the western country. The furnace castings and hollow-ware particularly, have been superseded by it, wherever it has been brought into use, and always given satisfaction. Having lived here a number of years, and being permanently located here, purchasers can rely on our guarantee as to the quality of the article sold by us; and as to the operation of our celebrated Prize-Premium Cook Stove, just read the certificates of those who have used them, and are using them now. And another advantage a purchaser will have in buying a St. Louis stove of us, he would not only be getting a stove made of the best material in the world, but he can at any time get an odd piece or plate without any charge, by letting us know that such is wanted, as all our stoves are warranted, and, in case of imperfection, the article will be promptly made good to the purchaser, which he will not find the case with Cincinnati, Chicago, Pittsburgh, and Eastern made Stoves, as you cannot get any odd pieces. Even if they were warranted, it would be impossible to get odd plates from such a distance.

We, the undersigned, having used the St. Louis Stoves manufactured by G. F. Filley, of St. Louis, and sold by CARTER W. BRYAN, at Hannibal, Mo., take pleasure in recommending them to the public as superior in point of draft, durability, economy, convenience and ease of regulation, to any stove which we have ever used:

NEW COOK STOVES!!

Persons wishing to buy stoves, should give us a call, and examine our new patterns of

Having secured the agency of them for this city, this stove possesses advantages over common stoves, in thickness of the plate, and improvements in draft. It is given up by all stove dealers and manufacturers, to be the best pattern for a descending flue, of any stove now made East or West.

This stove was patented September, 1852, and wherever they have been used, have given general satisfaction. This stove weighs some forty pounds more to the number than any other stove ever brought to this city. The plates in them are from one-half to three-fourths of an inch in thickness. No. 1 weighs over 200 pounds. We warrant them all against fires. These stoves have a Patent Hot Air Flue, which carries the heat that is generated under the fire-plate down the front part of the stove, between two thick plates to the draft at the bottom of the stove. FIELD'S SCRAP BOOK — New Edition.

Literary and Miscellaneous Scrap Book.
CONSISTING of Tales and Anecdotes—Biographical, Historical, Patriotic, Moral, Religious, and Sentimental Pieces, in Prose and Poetry. Compiled by William Fields. Second edition, revised and improved.

The Footpath and Highway; or, WANDERINGS of an American in Great Britain, in 1851 and '52. By Benjamin Morgan. This volume embodies the observations of the author, made during eight months' wandering, as a correspondent for American Journals; and as he traveled much on foot, differs essentially from those on the same countries, by other writers.

New Themes for the Protestant Clergy; VIRTUES without Charity, Theology without Humanity, and Protestantism without Christianity; with Notes by the Editor on the Literature of Charity, Population, Panorama, Political Economy, and Protestantism. The great question which the book discusses is, whether the Church of this age is what the primitive Church was, and whether Christians—both pastors and people—are doing their duty. Our author believes not, and, to our mind, he has made out a strong case. He asks there is abundant room for return at the present time, and that it is needed almost as much as in the days of Luther.

FALL and WINTER,

Foreign and Domestic Dry Goods!!

Will exhibit a greater variety and be more commanding, and general, than they have ever elicited in this market. Every article the requirements of the retail trade demands, can be obtained from them.

It will be their constant exertion to so conduct their business, as to make it the interest of the merchants to deal with them. Every article in their stock will be sold as low as it can be obtained in this city, or delivered from N. York or Boston. It is their desire to do business with responsible merchants and in such a manner, that when once commenced, it will continue. They know their success depends solely upon the success of their customers, and it will be their aim to make their intercourse with merchants mutually and reciprocally beneficial. They ask Dear merchants who visit St. Louis this fall, a thorough examination of their stock and prices.
